

Description:

Plastic pallet boxes are large capacity containers used mainly in the horticulture and industrial sectors.

Compact and sturdy containers that enable to transport delicate goods such as fruit or vegetables.

Pallet boxes are very light. Their manipulation is very comfortable. They can be easily moved with a pallet truck.

They are also stackable for easy storage .

They can be washed manually or industrially at high temperatures.

Uses:

ITM PACK plastic pallet boxes have multiple uses.

Horticulture Sector

Plastic pallet boxes are used to collect all kinds of fruit and vegetables. Such as melons, watermelons, oranges, lemons, grapefruit, pomegranates, broccoli, garlic, onions, peppers, chestnuts, artichokes, pumpkins or corn, among others.

Industrial Sector

Their use extends to any field in which large capacity containers are required. In addition, their resistance to chemicals is a great advantage for the storage of delicate substances.

Meat industry

They are used by the meat industry as containers for large pieces such as hams. ITM Pack has developed a blind pallet box model especially for this use.

Liquid Products

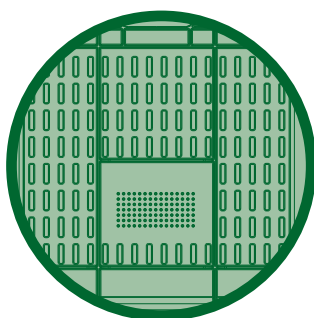

As a container for all types of liquid.

Material:

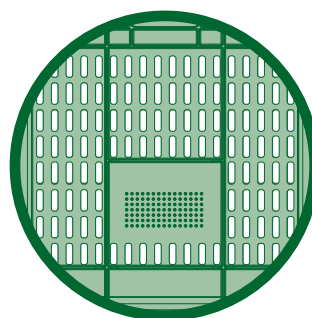

Boxes and legs made of high-density polyethylene (PEHD).
